Dear Mr. Buehring:

I would like to commend your company for its dedication to the support of the X-Band Radar (XBR) Project Office through all phases of transporting the radome. The successful completion of this transportation project is a vital part of the overall success of the XBR. The professionalism, sound judgment, and attention to details you provided are worthy of special recognition. We recognize that the priority you placed on this project may have interrupted your normal business, but you can be confident and proud that your efforts and the safe delivery of the radome were vital to the XBR, a critical component of our nation's defense.

Sincerely,
